EXECUTIVE SUMMARY

After years of working as a graphic designer, I began to expand my role into HTML and CSS coding. As that transition happened, I developed a greater interest in code and programming. I decided to begin studying software development full time. I like that coding gives me the opportunity to use my creative background along with my passion for problem solving. I am excited for this new step in my career.

SKILLS

HTML5
CSS
JavaScript
Git
React.js
Agile
PhotoShop
Illustrator
InDesign

EDUCATION

Nashville Software School
Nov 2019 - May 2020
CFull Stack Development
